

# Slide-Pac™ Conveyors

## Maximum Speed Setup

Built with high efficiency rollers at the head end of each of the top conveyors, this system is designed for high speed transition between operating and transportation ready positions.

- ▶ Unload middle and top units from trailer unit in less than 10 minutes
- ▶ Return conveyors to transport mode in less than 10 minutes

## Accommodating Sizes

Depending on your needs, owners can transport up to 240 feet of conveyors in one load.

- ▶ 36" x 80' or 36" x 70" or 36" x 60' conveyor packages
- ▶ Top unit equipped with manual raise strut axle, capable of a 12'-3" discharge height

## Safety by Design

Avoid lifting portable conveyors with loaders or cranes and gain extra safety and security at your site.

- ▶ Slide-off method reduces hazards created when lifting heavy equipment
- ▶ Heavy-duty locking system fastens conveyors together during transportation

## Highly Portable

Stay active and significantly increase your portable plant's efficiencies with this proficient conveyor system.

- ▶ Tandem axle on 80' system
- ▶ Trailer unit equipped with air brakes, fifth wheel hitch and travel lights

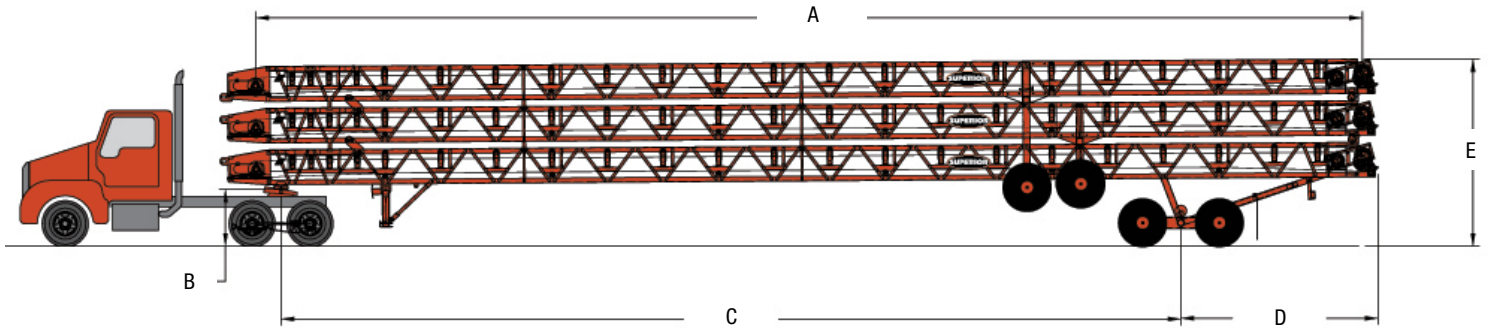

Loader Assisted Setup

Quickly Roll Conveyor On or Off

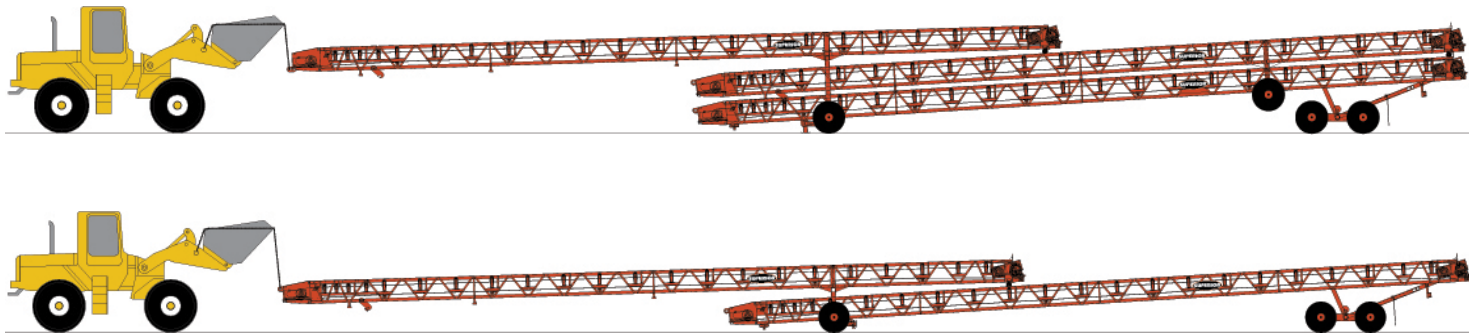

# Maximum Efficiency

## Transport Ready

Conveyor Dimensions	A	B	C	D	E
